Subject: Re: status of GenX sampling

Thanks Roger. He asked for other data too. Do we have any of that data?

Subject: FW: status of GenX sampling

Hi Andy,

I haven't received any information or updates since the email sent by Andrew Hartten last Thursday. If everything goes as expected, the first preliminary results should be in later this week or early next week. I'll let you know as soon as I hear something.

Roger

Subject: RE: status of GenX sampling

Hello Roger,

I can answer this question as Kathy is traveling. All samples have been collected as of Monday (i.e., LHWA on Monday Feb. 19) except two residential wells where illness and flooding have prevented collection. I believe both will be collected in the next couple of days.

I expect to begin seeing preliminary results late next week, or early week of March 5. All results will have to be QA/QC reviewed before we issue a report.

Best regards.....Andrew

Subject: status of GenX sampling

Good morning Kathy,

Could you provide us with an update of the status of the GenX sampling we requested for the Washington Works area? Also, did the Little Hocking Water Supply ever provide their approval for the sampling? Thanks for your help.

Roger
